### WHITE LAKE TOWNSHIP PLANNING COMMISSION

7525 Highland Road White Lake, MI 48383 JULY 16, 2020 @ 7:00 p.m. Electronic Meeting

Acting Chairman Carlock called the meeting to order at 7:00 p.m. and led the Pledge of Allegiance. Roll was called.

ROLL CALL: Rhonda Grubb – Secretary

Debby Dehart Joe Seward Steve Anderson Merrie Carlock Peter Meagher Anthony Noble

Absent: Mark Fine – Chairperson - Excused

Scott Ruggles, Board Liaison

Also Present: Sean O'Neil, WLT Planning Director

Aaron Potter, WLT DPS Mike Lueffgen, DLZ

Sherri Ward, Recording Secretary

Visitors: Andy Andre

Rumi Shahzad John Czarnecki

### **Approval of Agenda**

Mr. Meagher moved to approve the agenda as amended. Ms. Dehart supported and the MOTION CARRIED with a voice vote. (7 yes votes)

### **Approval of Minutes**

a. June 4, 2020

Mr. Anderson moved to approve the minutes of June 4, 2020 as presented. Mr. Seward supported and the MOTION CARRIED with a voice vote. (7 yes votes)

Page 2 of 5

### Call to the Public (for items not on the agenda)

No public.

### **Public Hearing:**

No public hearing this evening.

#### **Old Business:**

No old business.

### **Continuing Business**

### a) New Hope White Lake, LLC

Location: Property described as parcel number 12-25-400-029 (vacant), located on the west side

Williams Lake Road and south of Elizabeth Lake, consisting of approximately 21.75

acres. Property is zoned (PD) Planned Development.

Request: i) Final Site Plan Approval

ii) Planned Development Agreement Approval

Applicant: New Hope White Lake LLC

Mr. O'Neil discussed the review letter comments and the preservation of some of the woodlands. Mr. O'Neil noted that they will be getting credit for preserving some of the existing mature trees, which he prefers instead of small new ones being planted. The entryway and building will be landscaped, so there will be plenty of landscaping.

Mr. Anderson said he saw the stone sample in the Planning Department and it looked like a nice product but he wondered if the stone will match the green/gray siding. There were no shingle samples and he asked what color will the roof be? Mr. Czarnecki said that is what they have been using for the buildings. Mr. Anderson feels like the colors don't go together. The colors have been worked out on other projects, and the siding and shingles aren't the same color. Mr. Shahzad noted that the last three projects have been award winning, when it's all together it goes well with the surrounding areas and looks good. It's aesthetically a matter of our choice and it will look good. Mr. Potter noted that the digital rendering in your package doesn't match, he suggested going to the website for their other development. The actual colors are a lot more muted. Their color combination is tried and true and has worked in a few different locations, it will look great here. Mr. O'Neil asked if they were trademark colors? It's almost like a signature brand.

Mr. Lueffgen discussed his review. The plan set is in really good shape.

Ms. Carlock asked if there was anything outstanding on the McKenna review. There is a tree planting requirement that was discussed. He would suggest one more tree on the end near the neighbor. Andy Andre noted that the entrance way and landscaping provides the kind of pop they were looking for. They really want to leave the nice, mature trees which leaves them less of an area to work with. They've lowered the building elevation, and that adds to the retaining wall. Mr. Andre discussed the grade on the property. Mr. Potter asked if it was similar with what they did with Meijer, and it is.

Ms. Dehart asked if there was a sidewalk around the entire building? Mr. Andre wanted to point out how large the courtyards are. Rumi noted that more than half of the residents are wheelchair bound, these courtyards will be a key feature for the residents with their family.

Mr. O'Neil noted that one of the comments and conditions was properly screening that last house on Benny Lane. He would like to see the berm a little higher, and maybe adding some more plantings. Mr. O'Neil reported that we can work with the applicant to address this. Mr. Andre noted that Mr. Shahzad met with some of the neighbors, they like the berm and would like it wrapped around. Mr. Shahzad noted that they will do what the Township would like them to do. Some sidewalk dollars could be applied towards other areas in the Township where it would make more sense. Mr. O'Neil stated that if the neighbors are happy, he's happy. It will be pretty harmonious and preserve lots of the area. Mr. Anderson asked about the time frame. Mr. Shahzad would like to be completed by Fall of 2021.

The development agreement is pretty straight forward and Mr. Lueffgen noted that all of the previous comments have been worked out.

Mr. Seward has questions about the development agreement, and he wanted to clarify what may be a typographical error. Mr. Seward also had a question about two of the paragraphs. Mr. O'Neil clarified the meaning of the paragraphs. Mr. Seward would like Lisa Hamameh to take a look at this again, Mr. O'Neil will take this back to her. Most applicants are going to put their best foot forward. Mr. Anderson asked for clarification on one of the paragraphs of the agreement and Mr. Potter would like to reword some of it to clarify the intent.

Ms. Dehart asked if there will be rehabilitation in the building, and Mr. Shahzad said there will not be.

Mr. Anderson moved to recommend to the Township board the approval of the Final Site Plan for the New Hope White Lake LLC property described as parcel number 12-25-400-029 (vacant), located on the west side of Williams Lake Road and south of Elizabeth Lake, consisting of approximately 21.75 acres. Property is zoned (PD) Planned Development. The approval is subject to all consultant and planning department review comments, comments during the meeting tonight and specifically address the issue with the berm on the far westerly house on Benny Lane, how the berm will wrap down the west side and curl around to the south with some landscaping as discussed. Ms. Dehart supported and the MOTION CARRIED with a roll call vote: Grubb – yes; Dehart – yes; Seward – yes; Anderson – yes; Carlock – yes; Meagher – yes; Noble – yes (7 yes votes).

### ii) Planned Development Agreement Approval

Mr. Seward moved to recommend that the Township Board approve the Planned Development Agreement for New Hope White Lake LLC subject to a review by the Township attorney to make sure the language is clear and as to the intent that was discussed today including being allowed to tap into the sewer. The Planning Commission will grant the request to allow for the mature trees to meet the Township requirements for landscaping, with one tree being added at SW corner of the property. Ms. Grubb supported and the MOTION CARRIED with a roll call vote: Grubb – yes; Dehart – yes; Seward – yes; Anderson – yes; Carlock – yes; Meagher – yes; Noble – yes (7 yes votes).

Mr. Noble wanted to comment that it's going to be a great spot for that location and that Mr. O'Neil did a great job working for them and appreciates the professionalism that was shown tonight. Mr. O'Neil stated that we started our dialog about a year ago, he's been patient and diligent and he's been very committed to the community and this is a perfect fit. They've been very welcoming to the neighbors and they're happy with the level of respect, it doesn't usually go as well as this one and Mr. O'Neil wanted to thank them for taking their comments so seriously. Mr. Shahzad wanted to thank everyone, and noted that they have launched the White Lake website for the development, this is the beginning of a relationship, but the people make it the community.

### Liaison's Report

Ms. Grubb reported Parks and Recreation met via Zoom this month and discussed the triangle walkway and Stanley Park. Mr. O'Neil noted that the RFQ for Stanley Park went out and they invited four firms and they are looking for more if anyone knows of a firm.

Ms. Dehart noted that the ZBA had three cases. They have had major remodels, and the remodels are going over the 50% construction cost of the State Equalized Value (SEV) in the ordinance, so maybe that should be something we look at. Mr. O'Neil noted that the ordinance is for already nonconforming structures, and do we want that structure to continue and it can be for the sake of the neighbor. Mr. O'Neil noted that we could look at it, but he wants to make sure everyone knows where it came from. The second rezoning of the property across from Discount Tire was approved and that rezoning has been finalized.

### **Planning Consultant's Report**

Greg Elliott was not in attendance to report.

### **Director's Report:**

Mr. O'Neil reported that Mr. Quagliata is doing a fine job and he's a quick study and he appreciates the job he's doing. Mr. Quagliata is looking forward to seeing everyone in person and working with everyone and he thanked everyone for being so welcoming. Mr. O'Neil noted that Mr. Quagliata has many ZBA meetings under his belt.

Mr. O'Neil noted that every week it seems like we are getting a lot of ordinance amendments. He would like to go through them in person. We are updating the Capitol Improvement Plan and there is a public hearing on it in September. We may be able to get the draft Capital Improvement Plan to the PC on August 20th. The Governor's most recent order expires on the 31st, but it seems like it could be extended again. We could hold the August 20th meeting in person, spaced out in the annex but he wants to take everyone's opinion into consideration. Mr. Seward asked if the order reads that we have to have a virtual meeting, Mr. O'Neil sees it as either option. Meetings like the ZBA are hard because of the amount of people and how to space them apart. Mr. Noble noted that Canton used a theatre and suggested Lakeland if necessary. Mr. O'Neil isn't sure how the schools would feel about that. Mr. O'Neil stated that it's probably going to be a Township board or policy decision.

Ms. Grubb asked about Mojave Cantina, Mr. O'Neil said they should be close to being done according to the owner. Ms. Grubb asked about the tree clearing at the front of Trailside Meadow. Mr. Lueffgen reported that it's the offsite sewer, and the tree clearing is where the structures will be. Ms. Grubb asked about the refuse notice she received, it will be discussed before the board and unfortunately Mr. O'Neil doesn't deal with those issues.

#### **Communications:**

### a.) Next meeting dates:

August 6, 2020 August 20, 2020

### **Other Business:**

No other business.

### Adjournment:

Ms. Grubb moved to adjourn the meeting at 8:31 p.m. Mr. Seward supported and the MOTION CARRIED with a voice vote. (7 yes votes)

# 2021-2026 Capital Improvement Plan (CIP)

#### White Lake Oakland County, Michigan

#### Capital Improvement Plan 2021-2026 Resolution #20-031

Motion by	, Supported by	, that the White Lake
Township Board of Tr	ustees accept the Capital Improv	vement Plan for the years 2021-
2026. The White Lake	e Township Board has determine	ed the following:

WHEREAS, the Michigan Planning Enabling Act, Act 33 of 2008, requires the White Lake Township Planning Commission to annually prepare a Capital Improvement Plan for the benefit of the health, safety, and welfare of the community as those criteria relate to the physical development of the Charter Township of White Lake; and

WHEREAS, the Township's professional engineering consultant, planning consultant, and Planning Director have consulted with the Township's professional staff who carry on the business of planning and providing for the present and future needs of the citizens of the Charter Township of White Lake; and

WHEREAS, the Capital Improvement Plan is intended to consider the present and future needs and goals of the Charter Township of White Lake, as identified by the public, department heads, the Township Board of Trustees, and the Township Planning Commission, in consideration of existing projects and plans as well as anticipated resources; and

WHEREAS, the Capital Improvement Plan is a flexible document, intended to be reevaluated and updated on an annual basis to project into the six (6) succeeding years, and further amended as necessary to address the policies and philosophies of relevant Township Boards, Planning Commissions, and other stakeholders; and

WHEREAS, the Capital Improvement Plan is a guide and forum to aid the Township Supervisor and Township Board of Trustees in making decisions regarding the physical development and infrastructure maintenance of the Township and determining what, if any, resources can and should be available to carry out the Township Board's policies and budgetary decisions; and

WHEREAS, the draft of the Capital Improvement Plan has been available for public review via the Township website and copies made available at the office of the Township Planning Department, and has been an agenda item for discussion and review by the Planning Commission and Township Board at several public meetings, and has been the subject of a duly-noticed Public Hearing held before the White Lake Township

### Resolution of Adoption, continued

Planning Commission on September 3, 2020 and will be reviewed, revised, and updated by the Planning Commission on an annual basis; and

WHEREAS, the Capital Improvement Projects included within the Capital Improvement Plan have been evaluated utilizing a point-system of variables that included, among other things, whether a Capital Improvement Project has already begun, whether funds have been committed to the Project, the sources of funds committed to a Project, whether the Project is required per a legal obligation, or whether the projects is part of a Township-adopted policy, plan, or program; and

WHEREAS, the White Lake Township Planning Commission on September 3, 2020 moved to adopt the 2021-2026 Capital Improvement Plan.

NOW THEREFORE BE IT RESOLVED, that the Capital Improvement Plan presented during the Public Hearing on September 3, 2020 and revised per the public comments received during that Public Hearing, and adopted by the White Lake Township Planning Commission on September 3, 2020, IS ACCEPTED BY THE WHITE LAKE TOWNSHIP BOARD OF TRUSTEES; and

BE IT FURTHER RESOLVED, that this Capital Improvement Plan should be published and attested to according to State law.

Ayes: Nays: Absent:

### RESOLUTION DECLARED ADOPTED.

I HEREBY CERTIFY, that I am duly elected and qualified Clerk of the Charter Township of White Lake, County of Oakland, State of Michigan, and the keeper of the records of the proceedings of said Township as authorized by the Township Board, and the foregoing is a true and correct copy of a resolution duly adopted by a majority vote a regular meeting of the Township Board legally held on the September 15, 2020 at which a quorum was present.

Terry Lilley, Clerk White Lake Township Oakland County, Michigan

### 1. Overview

The 2021-2026 White Lake Township Capital Improvement Plan (CIP) will serve as a tool to assist White Lake Township in turning long-range policy planning into real improvements on the ground. A six-year capital improvement plan and an annual update of that plan is now a requirement for White Lake Township under the Michigan Planning Enabling Act of 2008. The following report identifies the major capital improvements needed and/or planned for the community, the timeframe for implementation of those improvements, and the budget and revenue sources that will make those improvements a reality. Capital improvements cover multiple departments within White Lake Township, and include new Township facilities, water and sewer extensions, fire protection vehicles and equipment, police equipment, parks and recreation facilities, non-motorized pathways, and professional services.

The following subsections within this first chapter include an introduction to capital improvement planning, the community of White Lake Township, and the capital improvement planning process. In subsequent chapters, this report summarizes existing facilities (Chapter 2), provides detailed components for all major Township departments, facilities, and systems (Chapter 3), and presents the projected cost and revenue sources for all covered improvements (Chapter 4).

# 1a. Overview - CIP Overview

### What is a Capital Improvement Plan (CIP)?

A Capital Improvement Plan is a six-year schedule of public physical improvements which identifies the needs for major public infrastructure improvements, and the sources of funding to make those improvements. It provides a schedule of expenditures for constructing, maintaining, upgrading, and/or replacing a community's physical inventory. The CIP, therefore, is a tool to assess the long-term capital project requirements (the "big jobs") of White Lake Township. Since capital improvement projects are spread across multiple community needs (fire protection, police, water and sewer, parks and recreation, library, municipal administration, etc.), the CIP prioritizes these projects across the entire community and over time, providing an "apples-to-apples" comparison of the community's various needs and wants.

### What are Capital Improvement Projects?

Capital improvement projects are major and infrequent expenditures, such as the construction of a new facility, a major rehabilitation or repair of an existing facility, or the purchase of major equipment. Capital improvement projects are non-recurring expenditures that tend to be large both in physical size and in cost, and have a long-term usefulness (10 years or more). Examples of capital improvement projects can include:

- Construction of a new township hall
- Construction of a new fire station
- Extension of a water/sewer line
- Purchase of a new fire truck
- Construction of an addition to a township library
- Major rehabilitation of a township's community/senior center
- Creation of a new township park

Examples of expenditures which would not usually constitute a capital improvement project include:

- Purchase of new office furniture
- Purchase of small equipment (lawn mowers, copiers, individual computers, etc.)
- Recurring maintenance of existing facilities
- Minor repairs of existing buildings and equipment

Minor improvements to existing buildings (carpet, painting, etc.)

The term "major expenditure" is relative; what is "major" to one community might be "minor" to another. The City of Ann Arbor, for example, sets a minimum threshold of \$100,000 for projects to be included in the City's CIP, while the City of Rochester Hills sets a minimum of \$25,000. White Lake Township's policy for determining a Capital Improvement is defined in the following section.

### What is White Lake Township's Capital Improvement Policy?

A capital improvement project is a major, nonrecurring expenditure that meets one of more of the following criteria:

- Any acquisition of land for a public purpose which costs \$50,000 or more.
- Any construction of a new public facility (Township building, water/sewer lines, pathways), or any addition to an existing public facility, the cost of which equals \$50,000 or more and has a useful life of three or more years.
- A nonrecurring rehabilitation (not to include annual/recurring maintenance) of a building, its grounds, a facility, or equipment, the cost of said rehabilitation being \$50,000 or more with a useful life of three or more years.
- Purchase of major equipment which, individually or in total, cost \$50,000 or more with a useful life of three or more years.
- Planning, feasibility, engineering, or design studies related to an individual capital improvement project, or program implemented through individual capital improvement projects, with a cost of \$50,000 or more and a useful life of three or more years.

### Why a CIP for White Lake Township now?

The Michigan Planning Enabling Act of 2008 requires a Capital Improvement Program for any Michigan township which owns and/or operates a water supply or sewage disposal system. Since White Lake Township owns and manages both a public water and sanitary sewer system, adopting and annually updating a Capital Improvement Plan is now a requirement per State law.

### What are the benefits of preparing a CIP?

The CIP is more than just a State requirement; it is an essential planning tool in addition to a statement of budgetary policy. It informs the taxpayers of White Lake Township how the Township plans to prioritize, schedule, and coordinate capital improvement projects over the next six years. The benefits of creating and annually updating the CIP include:

- Prudent use of taxpayer dollars;
- Focusing the Township expenditures on the needs of the community;
- Prioritizing projects across the needs of the community;
- Generating community support by inviting public input;
- Promoting economic development;

- Improving the Township's eligibility for State and Federal grants;
- Providing an implementation tool for the goals and objectives of the Township Master Plan:
- Transparency in identification of high-priority projects;
- Coordination/cost-sharing between projects.

### What is the role of the Township Planning Commission in the CIP process?

The Capital Improvement Program is a dynamic planning document, intended to serve as a tool to implement the White Lake Township Master Plan. The Master Plan should correspondingly include capital improvement projects as well as guide long-term capital planning. The White Lake Township Planning Commission is uniquely qualified to manage the development and annual update of the Township's CIP, based on their role in creating and updating the Township Master Plan. The Planning Commission's role will ensure that public works projects are consistent with the land uses identified within the Master Plan. By making a recommendation of approval for the CIP to the Township Board, the Planning Commission agrees that the projects outlined within it reasonably address the Township's capital improvement needs.

The CIP is an essential link between planning for capital improvement projects and budgeting for them. Once approved by the Township Board, the CIP can be used to develop the capital project portion of the Township's budget. Those projects included in the CIP's first year (2021) potentially form the basis for the upcoming year's capital project budget. As the CIP is annually updated, a continuous relationship will be maintained between the CIP and the Township's annual budget. The annual update to the CIP will occur in advance of the preparation of the Township's budget.

# 1b. Overview -White Lake Township Overview

White Lake Township, Oakland County's "Four Seasons Playground," prides itself as a community which continues to promote economic growth, sustainable development, and a strong sense of place. White Lake's character as a premier residential community, with ample recreational opportunities and superior public and private schools, sets it apart and establishes the Township's unique identity.

The Township continues to promote sound fiscal policy while maintaining appropriate levels of service to meet the needs of its growing population. Public utilities infrastructure, police, fire and emergency services, parks, recreation and senior services, as well as planning, building inspection and administrative services are all designed to provide residents with the full-service amenities of a modern municipality in a cost effective, fiscally responsible and sustainable manner.

### **Principal Land Uses**

While the commercial base of White Lake Township continues to grow, the principal land use within the Township remains single-family residential. Based on existing land use data from Oakland County Economic Development and Community Affairs, 35.2% of the Township's nearly 24,000 acres is developed as single family residential. The second largest land use in the Township (in terms of land area) is recreation/open space, comprised of two State Recreation Areas (Pontiac Lake and Highland), a regional Metropark (HCMA's Indian Springs), and an Oakland County-owned golf course (White Lake Oaks). Combined, the recreation/open space land uses within the Township comprise over 25% of the land area (6,000 acres). 11% of land within the Township (approx. 3,000 acres) was classified as vacant in 2018. The Township's commercial, industrial, and office uses comprised 2.5% of the land area in 2018. The majority of the commercial, industrial, and office uses in White Lake Township are located along the M-59 corridor, although some are scattered elsewhere throughout the Township, mostly in the southeast quadrant. There is also a small industrial concentration in the Township's northeast corner. The 21 lakes within White Lake Township comprise almost 11% of its total land area. Figure 1-1 displays the 2018 Existing Land Use Map.

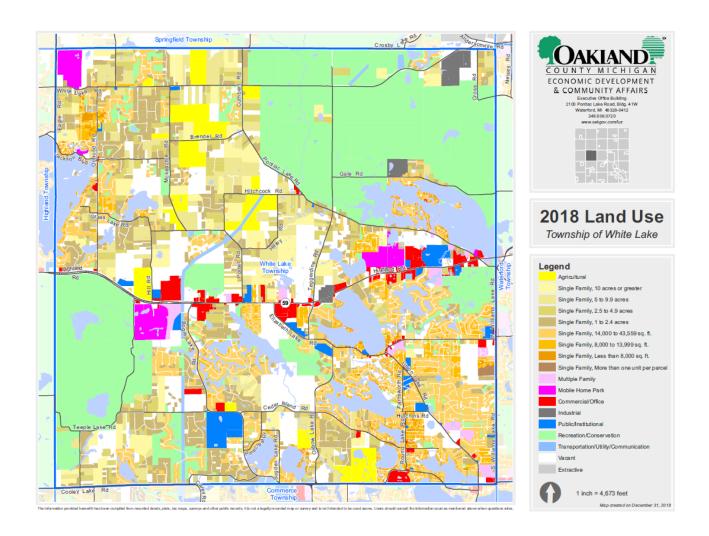

### **Population**

As of the 2010 Census, the population of White Lake Township was 30,019, a 6.4% increase from the 2000 Census (28,219). Population projections created by the Southeast Michigan Council of Governments (SEMCOG) estimate that the population of White Lake Township will only increase slightly over the next twenty years with a forecasted population of 31,578 in 2030. This projection is subject to change based on social and economic factors.

### **Employment**

SEMCOG Community Data for White Lake Township shows the two highest employment-sectors within the Township to be Retail Trade (approximately 21% of total employment) and Information and Financial Activities (approx. 15%).

# 1c. Overview - CIP Process Overview

### Background

The development and the adoption of a CIP is driven by a statutory requirement at the State level. The State of Michigan has set forth the requirement for a CIP under the Michigan Planning Enabling Act, Act 33 of 2008. This reporting requirement for townships was effective September 1, 2008. The following excerpt from Act 33 sets forth the requirement of a township to adopt a CIP:

"...(2) Any township may prepare and adopt a capital improvement program. However, subsection (1) is only mandatory for a township if the township, alone or jointly with 1 or more other local units of government, owns or operates a water supply or sewage disposal system."

The contents of the CIP are set forth under the Government Accounting Standards Board Statement 34 that basically requires the CIP to report on the value of their infrastructure. GASB 34 requires state and local governments to begin reporting all financial transactions, including the value of their infrastructure assets, roads, bridges, water and sewer facilities, and dams, in their annual financial reports on an accrual accounting basis.

The Charter Township of White Lake is not a road agency under Public Act 51 of the laws of the State of Michigan. Accordingly, public road and bridge projects are not reported in this CIP. All other infrastructure components with construction costs in excess of \$50,000 per year are reported in this CIP.

The following sections outline the Program Areas of the White Lake Township CIP:

- 1. Data Collection Process
- 2. Data Compilation Process
- 3. CIP Adoption Process

### **PROGRAM AREAS**

The components of the CIP are compiled and reported by Program Areas. The following table (Figure 1-2) displays the Program Areas used in this CIP (each assigned with a color). These program areas represent the stakeholders in the CIP.

FIGURE 1-2. CIP PROGRAM AREAS			
Label	Definition / Description		
BP / PK	Bike paths, trail ways, and park facilities/services		
FA	Township-owned buildings and facilities (offices, storage buildings, museums, etc.)		
FD	Fire protection / EMS facilities and equipment		
IS	Internal support services (IT, GIS, fleet vehicles, communications, etc.)		
PD	Police Department facilities and equipment		
SS	Sanitary sewerage disposal system		
WS	Water supply system		

#### 1. Data Collection

Each of the stakeholders outlined above has either a master plan or schedule that defines the needs and resource level within their respective area of responsibility. This information is in varied formats and cannot be readily compiled without a significant amount of interpretation. To resolve this interface situation, standard forms were created that allow the stakeholders to define their projects and resource allocation levels. The standard forms used for data collection are found in the Appendix. At a meeting with the stakeholders, the CIP process and the forms were explained in detail along with a request for the forms to be filled out based on what information is currently available. The information generated from these forms has been systematically compiled as the core of the CIP. A definition of the forms is provided as follows:

- Project Application Form Consists of project descriptions, schedules, necessity, and
  possible sources of funding. The information provides an understanding of the overall
  scope of each project and how it is valued within its program area and within the
  Township. While stakeholders may be aware of major projects further out on the horizon,
  only those planned for within the six-year window of the 2021-2026 CIP were included.
- Project Cost Detail Form Consists of a matrix of six (6) budget years across the top of the form and a listing of costing components along the side of the form. The form is split into two (2) parts; the upper half is the capital cost for the project and the lower half is the cost of operations or maintenance for that project if applicable. Recognition of the operations and maintenance costs of a project is a valuable tool in forecasting future needs for resource allocation. Investment in a new facility is only worthwhile if there are funds available to operate and maintain it.

Project Rating Form - Used to rate both the importance and impact of a project within its
program area and within the Township (an "apples-to-apples" comparison). The rating
number is not an absolute in itself but is important in distinguishing between projects that
are similar in scope. The ratings are weighted with emphasis given to those projects that
are mandated by law, by agreement, or because they are a matter affecting health safety
and welfare.

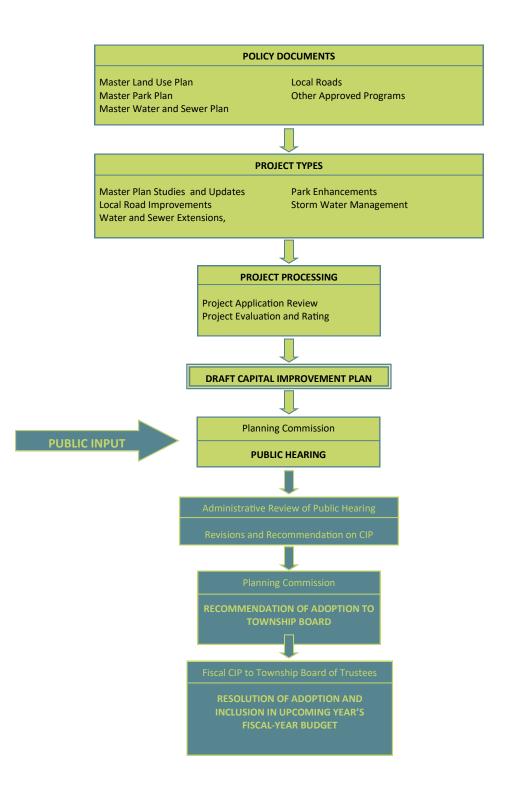

### 2. Data Compilation

The information received from the stakeholders has been compiled into a Project Summary Worksheet. This worksheet contains all of the projects in the CIP over six (6) budget years with a cost summary of each budget year by program area and for the entire CIP. Included with the worksheet is the listing of possible funding sources and an estimate of the Township's share for each project. The project summary worksheet can be found in the Appendix of this CIP.

### 3. CIP Adoption Process

The adoption process involves a public hearing to solicit citizen input. The CIP will then be modified (if necessary), approved by the Township Planning Commission (via a formal recommendation for approval to the Township Board), and forwarded to the Township Board for adoption. Adoption of the CIP by the Township's Board of Trustees does not constitute an authorization to commit resources to any project. This approval is recognition of a plan for projects within the community that may move toward implementation in the future. The projects included within Year 1 of the Capital Improvement Plan potentially form the basis for the upcoming year's capital projects budget. An outline of the process is displayed in Figure 1-3 on the following page.

### FIGURE 1-3. CIP ADOPTION PROCESS

# 2. Existing Capital Facilities

In developing a Capital Improvements Plan, communities often find it essential to develop an inventory of their existing capital facilities. Before a community develops a list of "What we need," it is important to first look at "What we have." As stated in White Lake Township's Master Plan, "A municipality's public facilities are an important part of community life and are directly related to important issues such as quality of life and protection of the public health, safety, and welfare." The following is a summary of White Lake Township's major capital facilities and their current condition (where applicable), as determined by the directors of the respective departments. The location of existing Township facilities is noted on the Existing Facilities Map (Figure 2-1).

### White Lake Township Hall

7525 Highland Road Year Built: 1949

Last Major Improvement: 1996

Houses: Supervisor, Clerk, Treasurer, Assessing, Building,

Planning, Water, Sewer, Maintenance

Condition: Fair Extent of Use: Heavy

### **White Lake Township Fleet Vehicles**

Includes: Administrative vehicles, inspection vehicles; does

not include Fire Dept. vehicles

Year Acquired: Varies Condition: Varies Extent of Use: Varies

Average Duty Cycle: Approximately 7 years

### Fire Hall Number 1 (Headquarters)

7420 Highland Road Year Built: Unknown

Last Major Improvement: Parking Lot Replacement Serves: M-59 corridor; northeast and southwest quadrant

Condition: Fair Extent of Use: Heavy

### Fire Hall Number 2

Address: 860 Round Lake Road

Year Built: Unknown

Last Major Improvement: None Serves: Southeast quadrant

Condition: Fair Extent of Use: Heavy

Last Major Improvement: None Serves: Northwest quadrant

Condition: Fair

Extent of Use: Moderate

### **White Lake Township Police Station**

7525 Highland Road Year Built: approx. 1950

Last Major Improvement: 2001 (expansion)

Condition: Good Extent of Use: Heavy

### **White Lake Township Police Garage**

Location: Behind Police Station

Year Built: 2004

Last Major Improvement: None

Condition: Good Extent of Use: Heavy

### White Lake Township Police Communications System

Year Acquired: New in 2010 Last Major Improvement: None

Condition: Excellent Extent of Use: Heavy

### White Lake Township Police Vehicles

Includes: 15 Vehicles Year Acquired: Varies Condition: Excellent Extent of Use: Heavy

7527 Highland Road Year Built: 1985

Last Major Improvement: 2011

Condition: Excellent Extent of Use: Heavy

### **Dublin Community Senior Center**

685 Union Lake Road Year Built: approx. 1950 Last Major Improvement: 2001

Condition: Excellent Extent of Use: Heavy

### Water Tower 1

360 Woodsedge Drive Year Built: 1994

Last Major Improvement: 2007

Condition: Good Extent of Use: Heavy

### Water Tower 2

6055 Highland Road Year Built: 2004

Last Major Improvement: None

Condition: Excellent Extent of Use: Moderate

### White Lake Township Water System

Includes: Water mains, wells, land, well houses and pump stations, generators

Year Built: Ongoing

Last Major Improvement/Extension: 2017 Iron Filtration

Condition: Varies; primarily Good to Excellent Extent of Use: Varies; primarily Moderate to Heavy

### White Lake Township Sanitary Sewer System

Includes: Phase I sewer/appurtenances, Pontiac Lake sewer/appurtenances, Elizabeth Lake/ M-59/Meijer sewer/appurtenances

Year Built: Ongoing since 1998

Last Major Improvement/Extension: 2012

Condition: Good to Excellent Extent of Use: Light to Moderate

Address: 7500 Highland Road

Year Built: 1875 (State-designated historic site)

Last Major Renovation: 2013 (Interior)

Condition: Good Extent of Use: Light

### **Fire and EMS Equipment**

Includes: Three pumpers, three tankers, two ambulances, one heavy rescue, six fleet vehicles, and breathing apparatus

Year acquired: Varies; between 1995 and 2018 Condition: Varies; from Good to Excellent

Extent of Use: Varies; primarily Moderate to Heavy

### White Lake Township Clerk's Equipment

Includes: Voting tabulation machines (14)

Voter assist terminals (12)

Year acquired: 2018 Condition: Excellent Extent of Use: Varies

### White Lake Charter Township

### **Hidden Pines Park**

Location: Intersection of White Lake Road and Hidden Pines Drive.

Size: 9 Acres

Includes: One (1) Baseball Field and parking area

### **Township-Owned Land**

Total acreage: approx. 94 acres (including Township parks)

### Judy Hawley Park

Location: Behind Township Hall, just east of the Township Library

Size: 12 acres

Includes: Soccer fields, pavilion, play structure, basketball courts, sand

volleyball court, and pathway.

### Ferdinand C. Vetter Park

Location: Behind Dublin Community Center on Union Lake Road

Size: 6 acres

Includes: Baseball field, picnic shelter, pathway, and play structure

### **Bloomer Park**

Location: West side of McKeatchie Road, between

Grass Lake and Jackson Roads Size: Approximately 28 acres

Description: Picnic shelter, scenic overlook, and nature trails

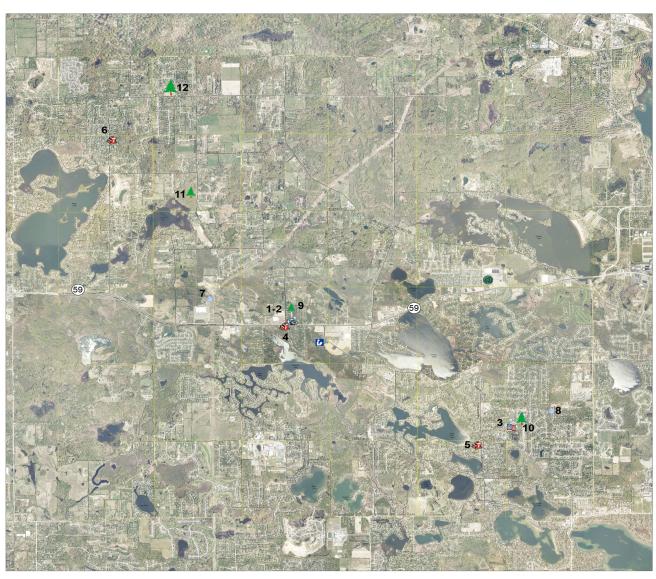

### White Lake Charter Township

White Lake Township Library 11005 Elizabeth Lake Road

Year Built: 2019 Condition: Excellent Extent of Use: Heavy

## 3. Executive Summary

#### **Stakeholders**

The level of input from the stakeholders has greatly contributed toward the formulation of the CIP. Project profiles consisting of the Project Application Form, the Project Cost Detail Form, and the Project Rating Form were received from Parks and Recreation, Library, Senior Center, Police Department, Fire Protection, Facilities, and Water and Sewer Departments. Though some of the information received will require further detail, it is the most current information available until future refinements are made to the project profile.

### **Project Histories**

Just as important as tracking current and future projects is cataloging the past accomplishments of the Capital Improvement Plan. Located in the back of the plan is a Project Histories Summary Table. This table illustrates those past projects that have been completed or canceled. Some projects are changed over time, the original project number may be dropped and new project numbers and created in its place. The Project Histories Summary can be used to track the priorities of the Township over time and can help track overall investment in the community based on geographic regions.

### 2020 Project Histories

Capital improvements, outlined in the 2020-2025 CIP, completed during 2020:

WS-0016 Hillview Well House Upgrades

## 3. Executive Summary

### **Projects**

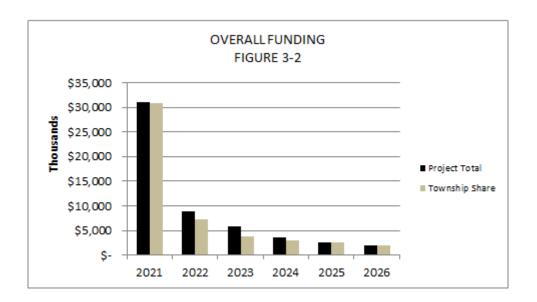

Review of the Project Summary Worksheet (found in the Appendix of this report) indicates that there are several individual projects located in the same geographic area. There are potential cost savings that can be realized by combining projects. At a minimum, mobilization, traffic control, and restoration are just some of the potential cost savings achieved by combining projects for construction. The potential grouping of projects are identified in Figure 3-1 below:

FIGURE 3-1			
Location	Project Labels		
M-59, Teggerdine east 0.3 miles	BP-0003 and PK-0006		
Bogie Lake Road, Huron Valley Schools to M-59	BP-0006 and SS-0003		

If the funding and timing of these projects can be orchestrated, the savings are significant. The exact savings cannot be determined until a detailed project costing and analysis of the common scope between the projects is performed. Also, in the future other projects such as new facilities can be can be studied to determine if combining operations can realize a cost savings. Other benefits include providing a list of projects in advance in order to help establish the need for grants and funding opportunities.

### **Funding**

This CIP has many projects that are unfunded. The limitations of funding will likely cause projects to be delayed, deferred or cancelled. Each project has a potential funding source and many are dependent on a contribution from the Township's General Fund (GF). Many projects list funding sources from State and Federal grant programs, but those grants have not yet been secured. The following chart depicts the relationship between total project costs, and the Township's share of those costs. Additional revenue for projects that are not completely funded by the Township will come from grants and other funding sources.

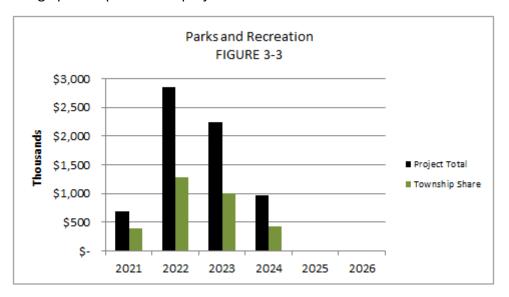

The Township's General Fund balance at the end of fiscal year 2019 is about \$10.1 million. <u>As indicated in Figure 3-2 above, the General Fund balance is inadequate to support the Township's share of the CIP.</u>

### **Funding Components**

In the following section, each of the funds shown on the Project Summary Worksheet are graphed and reported as part of the CIP with the exception of the projects listed under Internal Services.

### **Parks and Recreation**

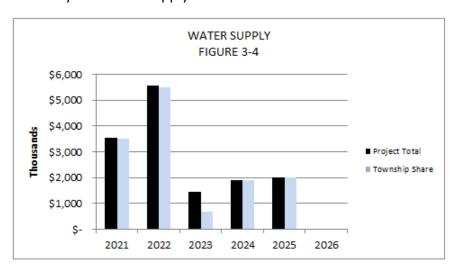

The Parks and Recreation Fund has a fund balance of about \$449,039 as shown in the 2019 Comprehensive Annual Financial Report (CAFR). This fund balance along with a Michigan Natural Resources Water and Land Conservation Grant, and Recreation Passport Grant will be used to leverage park improvement projects.

Careful budgeting of the Parks and Recreation fund will allow the level of service and maintenance of the Township's current and future park facilities to occur until additional parks funding can be established.

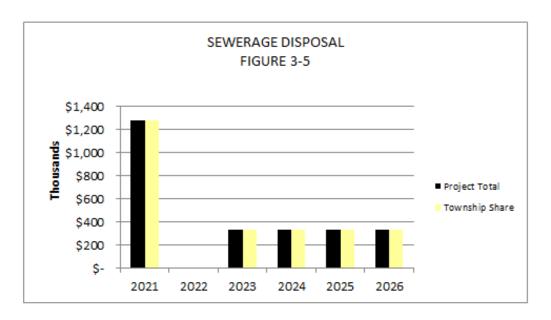

### **Water Supply Fund**

The Water Supply Fund (WF) is an enterprise fund that is not dependent on support from the General Fund. The Water Supply Fund (WF) has a balance of \$4.7 Million as of the close of 2019. Several projects in this program area are funded using the Drinking Water Revolving Fund supplemented by the Water Supply Fund balance.

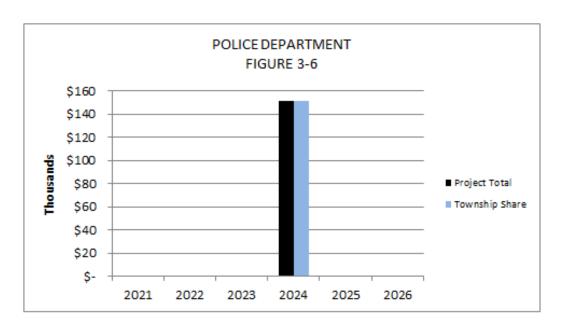

### **Sewerage Disposal System**

Development of Sewer has been done either by private development or special assessment districts (SAD's). The Township has a Sewer Maintenance Fund with \$880,720 as of 2019.

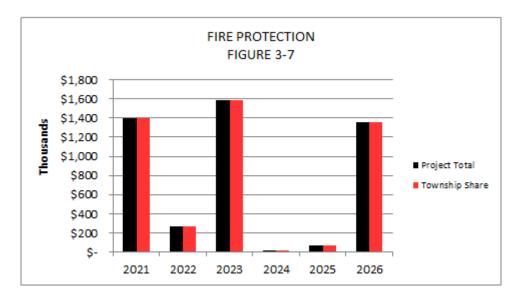

### **Police Department**

The 2019 CAFR reports a balance of \$3.6 million in the Police Fund. The Police Department is currently funded by a Township Millage.

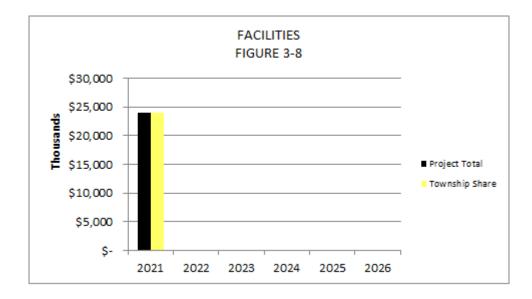

### **Fire Protection**

The Fire Protection Fund has a balance of \$5.6 million as reported in the 2019 CAFR. The Fire Protection Fund is supported solely through millage money.

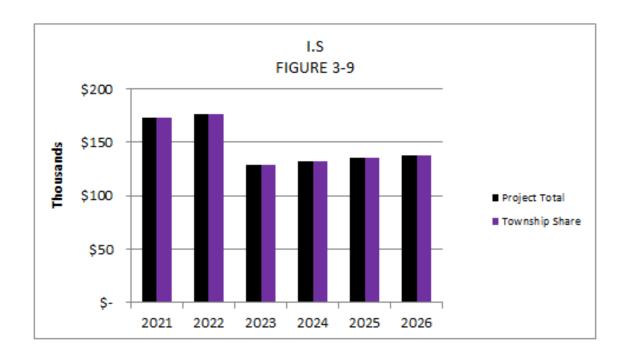

### **Facilities**

The Township Civic Center district will have a new Public Safety Headquarters that will cost \$16 million dollars. Also, a new Civic Center Building to replace the current Township Office at the cost of \$8 million dollars. This money will come from the Capital Projects Fund, and the issuance of bonds. The Township currently has approximately \$1.8 million dollars available for a new Township Municipal Complex in a Building Fund listed in the 2019 CAFR.

#### **Internal Services**

The Internal Services used to support the operating departments are included in the CIP due to their costs that are in excess of \$50,000. Because these services are collected as a charge back to the operating departments, there is no special fund involved.

## 4. CIP Components

The components of the Capital Improvement Plan have been complied and reported by the following seven program areas, each representing a stakeholder in the CIP.

#### **Section 4a. Facilities**

FA-0006 Public Safety Headquarters FA-0007 Township Civic Building

#### Section 4b. Fire Protection

FD-0002 - Fire Station 2 Replacement

FD-0006 - Fire Ladder Truck

FD-0008 - Fire Tanker Truck

FD-0009 - Fire Station 3 Improvement

FD-0010 - Fire Station 3 Ambulance

# 4a. CIP Components - Facilities

#### **Overview**

Facilities play an important role in providing an environment that is conducive to supporting the various operating departments that provide services directly to the residents in the Township. Facilities can be new building projects, building renovations, building expansions or the cost of services to support the existing buildings if this cost is significant.

Identification of significant costs to support existing building operations is an important tool in determining the cost effectiveness of operating existing public buildings.

Funding for supporting existing Facilities is normally derived by either a charge back to the budgets from the operating departments or done as a direct operating cost to General Fund.

Funding for new Facilities can be accomplished by a building authority. The Township has a legally established Building Authority that would be the governing body to finance and construct any new public buildings in the Township.

On the following page, each of the Facilities projects are listed along with their cost and funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY FACILITIES (FA)										
PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS			
FA-0006	Public Safety Headquarters	New Construction	110	Grant, GF, Bond Issue, PDF, FPF	\$16,000,000	\$16,000,000	\$			

#### **Project Description**

This building project is for the construction of a combined Police and Fire Headquarters Building to be located on Elizabeth Lake Road. The project cost includes the 40,000 square foot building and the associated site work.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
FA-0007	Township Civic Building	New Construction	96	Grant, GF, Bond Issue	\$8,000,000	\$8,000,000	\$

#### **Project Description**

The Township Civic Building will replace the 70 year Township Office Building (circa 1949) with a modern facility that will accommodate the Township's current needs. The building will be approximately 30,000 square feet.

# 4b. CIP Components - Fire Protection

#### **Overview**

Fire Protection provides a variety of vital services to Township residents. Fire Protection facilities are provided at several locations within the Township. In the CIP, new Fire Protection facilities, new Fire Protection equipment, and new Fire Protection vehicles are included under this section.

Fire Protection is principally funded by a Township Millage. Potential sources of funding for projects are the Fire Protection Fund balance, bond issue, or grants. Another possibility would be to use the Township's Building Authority to finance new fire stations.

On the following pages, each of the Fire Protection projects are listed along with their cost and potential funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY FIRE PROTECTION (FD)

Project Description

Replacement of two (2) transport units / ambulances.

# 4c. CIP Components - Internal Services

#### Overview

Internal Services play an important role in supporting the various operating departments that provide services directly to the residents in the Township. While Internal Services in itself is not a "project," the cost of this internal support is significant and bears inclusion as part of the CIP. Internal Services in this CIP are defined as computer networks, geographic information service (GIS), document storage, communications, and fleet vehicles.

There is no dedicated fund for Internal Services. Funding for Internal Services is normally derived by a charge back to the budgets from the operating departments that use or are supported by these services.

On the following page, each of the Internal Services projects are listed along with their cost and funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY INTERNAL SERVICES (IS)											
PROJECT PROJECT TITLE CATEGORY RATING FUNDING PROJECT COST TOWNSHIP OTHER FUNDING SHARE											
IS-0002	Fleet	New Equipment	80	PD / GF	\$ 783,000	\$ 783,000	\$				

#### Project Description

Replacement of cars and trucks (except Fire Department) on an annual basis to systematize the vehicle replacement process. Estimates are for a combination of three (3) cars and two (2) trucks each year.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
IS-0003	Document Management Program	Equipment / Professional Services	90	GF	\$100,000	\$100,000	\$

#### **Project Description**

Project includes providing Township Departments with the necessary software and hardware needed to continue digitizing the Township's document files. Project also includes funding for contracting with private firms to help expediate the process.

# 4d. CIP Components - Parks & Recreation

#### <u>Overview</u>

The Parks and Recreation Master Plan outlines a variety of services to Township residents. Parks and Recreation is principally funded by a non-major special revenue fund. Potential funding for projects can be from Parks and Recreation fund balance, grants such as Michigan Department of Natural Resources Trust Fund, County based tri-party funding, Michigan Safe Routes to School Program, Michigan Department of Transportation Enhancement Grant, Federal Housing and Urban Development.

On the following pages, each of the Parks and Recreation projects are listed along with their cost and potential funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY PARKS AND RECREATION (BP and PK)										
PROJECT NUMBER										
BP-0002	M-59 Pathway (Phase I)	Rehabilitation	98	MDOT-EG; P&RF	\$454,000	\$154,000	\$300,000			

#### **Project Description**

An important, long term, high-priority objective is the development of a Township-wide system of pathways connected to the regional network. Renovation of the M-59 pathway is an essential element that will connect future north-south routes, for example, Bogie Lake Pathway to the Four Seasons Trail.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS

PK-0012	Stanley Park	New Construction	91	MNRTF; P&RF GF, Donations	\$500,000	\$200,000	\$300,000

#### **Project Description**

Expansion of recreational land is critical to meet the needs of both existing and future residents, especially as vacant land becomes scarcer and the Township's population continues to grow. This property is unique with frontage on Brendel Lake and location adjacent to the future Township Civic Center.

## 4e. CIP Components - Police Department

#### **Overview**

The Township Police Department provides a variety of vital services to Township residents. The costs of operations and the demand for services create financial circumstances that are difficult to predict. In this CIP, special police equipment is listed as projects. Standard police cars are included as Internal Services under Fleet.

Police Department operations are funded by a major special revenue fund. Potential funding for projects can be from Police Fund balance, grants such as Homeland Security, drug forfeitures. The Police also have a four year operating millage that will collect until the end of 2021.

On the following page, each of the Police Department projects are listed along with their cost and potential funding sources.

CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY POLICE DEPARTMENT (PD)									
PROJECT PROJECT TITLE CATEGORY RATING FUNDING PROJECT COST TOWNSHIP OTHER SHARE									
PD-0002	Mobile Command Center	New Equipment	65	Grants; Drug Forfeitures	\$151,000	\$151,000	\$		

Project Description

A Mobile Command Center is a vehicle-based police facility, usually built around a motor home chassis. It allows command officers to provide on-scene command and control of large scale events or catastrophes.

# 4f. CIP Components - Sanitary Sewerage Disposal System

#### **Overview**

Sanitary Sewerage Disposal Systems do not currently provide service to all Township residents. Sewerage Disposal Systems that do exist are operated by the Water Resources Commissioner for Oakland County.

The Township does not have a Sanitary Sewerage Disposal Enterprise Fund listed in the 2019 Comprehensive Annual Financial Report (CAFR). The CAFR does list a General Sewer Fund as a non-major special revenue fund for the Township.

Potential sources of funding for projects are the General Sewer Fund, Special Assessment District (SAD), State Revolving Fund (SRF) loan program or contributions from General Fund.

On the following page, each of the Sanitary Sewerage Disposal projects are listed along with their cost and potential funding sources.

#### CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN **PROJECT SUMMARY** Sanitary Sewer (SS) PROJECT TITLE PROJECT COST OTHER FUNDS **PROJECT CATEGORY RATING FUNDING TOWNSHIP** NUMBER **SHARE** Western Outlet Sanitary New \$2,240,000 SS-0005 80 SAD, SRF \$2,240,000 \$--Extension Construction Phase Two

PROJECT NUMBER										
SS-0010	Shotwell Gravity Rehabilitation	Rehabilitation	137	SAD, SRF	\$350,000	\$350,000	\$			

<u>Project Description</u>
Reline nine hundred (900') feet of gravity sewer line along Shotwell, and replace manhole structures as needed.

# 4g. CIP Components - Water Supply System

#### Overview

The Municipal Water Supply System that is owned and operated by the Township and administered by the Water Department does not provide service to all Township residents. The Municipal Water Supply System derives its water from underground aquifers and is used for fire protection and domestic consumption. Many areas of the Township currently operate with private wells as their source of potable water supply.

The Township has a Water Enterprise Fund listed in the 2019 Comprehensive Annual Financial Report (CAFR). This Water Fund is managed by the Township Water Department.

Potential sources of funding for Water Supply projects are the Water Fund balance, Drinking Water Revolving Fund (DWRF), revenue bonds, special assessment districts (SAD's), or contributions from General Fund.

On the following page, each of the Water Supply projects are listed along with their cost and potential funding sources.

#### CHARTER TOWNSHIP OF WHITE LAKE CAPITAL IMPROVEMENTS PLAN PROJECT SUMMARY WATER SUPPLY (WS)

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
WS-0004	Twin Lakes I Well Replacement and Upgrades	Rehabilitation	126	DWRF, WF	\$260,570	\$260,570	\$

#### **Project Description**

The Township proposes to install a new well and pump at Twin Lakes I well site to replace the smaller capacity well at the site. This will require discussion with the MDEQ water bureau, site investigation using test/production well(s) to evaluate aquifer capacities, engineering design, permitting, identifying funding sources, contract administration and construction.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
WS-0007	Additional Tank No. 1 Feed	New Construction	71	WF	\$90,000	\$90,000	\$

#### **Project Description**

Additional water main connection within an easement between Newport Drive and Woodsedge Lane would provide an additional feed to the water storage tank. Currently, the 12-inch water main that fills the tank from Heritage Hills has head losses greater than 5 feet per 1,000 feet when all three pumps at Village Acres are in operation. Previous modeling indicated that the additional feed to the tank would lower the head losses to between 2 feet and 5 feet per 1,000 feed of pipe. This water main improvement would need to be funded by the Township.

WS-0008	Aspen Meadows Iron Filtration and Sewer Connection	New Construction	125	DWRF	\$2,500,000	\$2,500,000	\$

#### <u>Project Description</u>

The Township proposes to install a new iron filtration and sewer connection at Aspen Meadows well site. The iron filtration will help reduce iron and manganese at the lower used well house (about 6% of total water pumped) and second highest iron amount.

PROJECT NUMBER	PROJECT TITLE	CATEGORY	RATING	FUNDING	PROJECT COST	TOWNSHIP SHARE	OTHER FUNDS
WS-0010	SCADA Tower Replacement and GENSET	Rehabilitation	80	WF, DWRF	\$52,000	\$52,000	\$

#### Project Description

Replace Supervisory Control and Data Acquisition (SCADA) Tower at Water Office with a new tower, romex cable, new cement pad with anchors and locate at least 170 feet to the east on Highland Road. The current tower is twenty five years old and is oxidizing at the bolts and bottom tower brackets. The current tower is near the end of its life cycle. Also, the Water Department will need to upgrade the onsite gen set to backup the SCADA system.

Purchase a Backhoe Machine to assist in day to day department operations.

## **Appendix**

Excerpt from the Michigan Planning Enabling Act of 2008:

### MICHIGAN PLANNING ENABLING ACT (EXCERPT) Act 33 of 2008

125.3865 Capital improvements program of public structures and improvements; preparation; basis.

Sec. 65.

- (1) To further the desirable future development of the local unit of government under the master plan, a planning commission, after adoption of a master plan, shall annually prepare a capital improvements program of public structures and improvements, unless the planning commission is exempted from this requirement by charter or otherwise. If the planning commission is exempted, the legislative body either shall prepare and adopt a capital improvements program, separate from or as a part of the annual budget, or shall delegate the preparation of the capital improvements program to the chief elected official or a nonelected administrative official, subject to final approval by the legislative body. The capital improvements program shall show those public structures and improvements, in the general order of their priority, that in the commission's judgment will be needed or desirable and can be undertaken within the ensuing 6-year period. The capital improvements program shall be based upon the requirements of the local unit of government for all types of public structures and improvements. Consequently, each agency or department of the local unit of government with authority for public structures or improvements shall upon request furnish the planning commission with lists, plans, and estimates of time and cost of those public structures and improvements.
- (2) Any township may prepare and adopt a capital improvement program. However, subsection (1) is only mandatory for a township if the township, alone or jointly with 1 or more other local units of government, owns or operates a water supply or sewage disposal system.

History: 2008, Act 33, Eff. Sept. 1, 2008
